

HUGO REZENDE

WEB DESIGNER / CREATIVE PROGRAMMER

Objective and Presentation

I am a Software and interface developer with over than six years of professional experience. I've helped many companies to create pleasant, effective and easy to use solutions. I defend that design and programming must work together, bringing the best of each area to minimize the distance between software and user.

Technical Skills

Strong experience with developing rich applications with **HTML/CSS/JS**;
Experience with **Angular 2**
Solid knowledge of **PHP, MYSQL**, and **Codeigniter Framework**;
Good knowledge with **Magento** eCommerce (template building).
Solid knowledge with **Wordpress** (template building).
Strong experience in **Photoshop, Illustrator** to create software's and web layout;
Experience with **MYSQL** databases;
Solid skills with developing hybrid applications for Android/iOS (**Cordova/PhoneGap**)
